LOVING PET CARE

Probiotic Ear Care

Luna & Milo Probiotic Ear Care is a solution for quick and easy maintenance of pets' ears. The probiotics balance the microbiome and support the skin's natural flora, which contributes to the maintenance of a clean and healthy ear canal.

- For maintaining a clean and healthy ear canal.
- Promotes and protects healthy skin.
- Enhances the microbial balance of the ear canal.
- **Contains:** Microorganisms EU Group 1, citric acid, dissolvine, sodium benzoate.

Shake well before use.

How to use: Soak a gauze or cotton pad with **Luna & Milo Probiotic Ear Care**. Hold ear flap gently, and place soaked gauze at opening of ear canal. Do not push into the ear canal. Gently massage the ear for 30 seconds. Repeat till gauze comes out clean. Wipe away excess product.

Application: Initially daily during 1 week. **Maintenance:** weekly

Probiotic Eye Care

Luna & Milo Probiotic Eye Care is a solution to help maintain the natural balance of the skin around the eyes and the eyelids by supporting their beneficial flora.

- For maintaining the eye healthy and clean.
- Helps maintain the beneficial flora of the skin and the eye mucosa balanced.
- **Contains:** Microorganisms EU Group 1, citric acid, sodium benzoate.

Shake well before use.

How to use: Soak a gauze or cotton pad with Luna & Milo Probiotic Eye Care. Gently clean the surroundings of the eye in a soft motion without touching the actual eyeball. Always use a different pad for each eye to prevent cross contamination. Do not apply if an ulcer is present in the cornea.

Application: Initially twice daily for a week.

Maintenance: weekly

Probiotic Dental Care

Luna & Milo Probiotic Dental Care protects teeth and gums by promoting a beneficial oral microbiota, thus supporting the maintenance of a clean and healthy oral cavity.

- For maintaining teeth and gums clean and healthy.
- Promotes a beneficial oral microbiota.
- **Contains:** Microorganisms EU Group 1, citric acid, dissolvine, ricinus oil, sodium benzoate.

Shake well before use.

How to use: Spray **Luna & Milo Probiotic Dental Care** lightly 1 to 2 times daily in the mouth of the pet. The probiotics contribute to the maintenance of a clean, healthy and well-smelling oral cavity. In animals with tartar in the mouth, please consult a veterinarian to perform an oral cleaning to remove the tartar first, and then use the spray to keep the microbiota of the mouth balanced.

Application: 1-2 times daily

Carefully formulated using modern biotechnology based on microbiology

From Nature to ready to use effective, sustainable, and ecologic topical probiotics

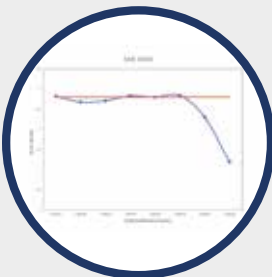

Collection of Probiotic Bacteria from a variety of sources

Isolation of the strains

Identification of strains by analysing its genome

Toxicity tests on CPEK (Canine Progenitors Epidermal Keratinocytes)

Mixing the CPB (Cocktail of Probiotic Bacteria) of different strains

Strains are selected based on Safety, Pathogenicity, Efficiency & Stability

Efficacy tests to determine the optimal combination of CPB and vehicle

Formulated Probiotic ready to be mixed for different purposes
